☰ North Gauteng Senior Science Fair 2019
🏠

🏠 SA Science Fairs > North Gauteng Senior > News > North Gauteng Senior Science Fair 2019

North Gauteng Science Fair is the oldest science fair in South Africa, celebrating its 40th annual event in 2019. 527 learners participated in 8 different events this year, with 115 being awarded gold medals. The following learners took the top 3 places:

3rd place: Jan-Willem Verhoef
 2nd place: Tallah Patelia
 Overall Winner: Anika de Klerk

It is exciting to see the increase in the number of regional science fairs being held in Gauteng each year. In 2014, there were only four science fairs in Gauteng. Since then, four additional science fairs have started, giving more opportunities to junior learners as well as learners from previously disadvantaged communities. Gauteng currently has more regional science fairs than any other province in South Africa.

North Gauteng Science Fair has also expanded its offerings since 2014, to include eight different sub-events. This has allowed it to remain the leading Science Fair in South Africa, including robotics, programming, scientific art, bridge-building, and other activities. Some of the highlights from the past few years are:

2015: North Gauteng Junior Science Fair was started for learners in grades 1-6.
 2016: Junior and Senior Robothons, and the GrottoBot Challenge were introduced.
 2017: Environmental Challenge and IT/Programming Challenge were introduced.
 2019: Bridge Building and Maths/Stats Challenge were introduced.

Many thanks to our main sponsors, without which this event would not have been possible:

- University of Pretoria, who sponsored the venue for this event
- TT3 Repairs, who sponsored many of the prizes;
- SAAB, who sponsored some of the prizes.

Achievement	1st Position 3D Printing Competition North Gauteng Science Fair
Date	17 August 2019
Description:	Competition within the north Gauteng Science Fair where participants inputted programmed the computer to send commands to the 3D printer to print an object. The competition was judged on speed and accuracy.

Achievement	Rising Star Award TADHack Global Hackerthon
Date	13 October 2019
Description	TAD Hack is a global hackerthon run in conjunction with MTN and Geekulcha in South Africa. Tadhack is a 72-hour hackerthon, where developers, IT professionals, students etc. develop an or computer science solution to a specific problem.

Achievement	TADHack Internship Winner
Date	11 October 2020
Description	I was awarded a year-long internship with the Software development company Contactable. When the company CEO, Shawn, saw my App, my coding skills and my age (15), he was so impressed that he contacted me to have a chat and understand my passion for Computer Science. During the prize giving I was surprised to learn that I was awarded an Internship with Contactable. This gave me access to a mentor as well as the opportunity to work on identification software for the company. I learnt a lot and developed tremendously through the internship.
